

Comprehension:

The following table shows the percentage (%) distribution of 12th class students scoring (i) 95% and above marks, and (ii) between 90 - 95% marks, along with ratio of Girls to Boys among them from six schools A-F of Delhi. Total number of students scoring 95% and above marks and between 90 - 95% marks are 6000 and 10000, respectively. Based on the data in the table, answer the questions that follow.

School-wise Distribution of Students Based on Marks

School	Scoring 95% and above marks(6000)		Scoring between 90 - 95% marks (10000)	
	Percentage of students	Girls : Boys	Percentage of students	Girls : Boys
A	13%	11 : 5	16%	3 : 2
B	18%	5 : 7	6%	1 : 4
C	17%	3 : 5	10%	5 : 3
D	8%	7 : 1	28%	2 : 3
E	24%	5 : 4	21%	9 : 5
F	20%	5 : 3	19%	3 : 4

SubQuestion No : 1

Q.1 The number of boys of schools E and F together who scored 95% and above marks is approximately _____ % less than the number of girls of schools B and E together who scored between 90 - 95 % marks.

- (1) 24
- (2) 26
- (3) 20
- (4) 22

Options 1. 1

2. 2

3. 3

4. 4

Comprehension:

Read the passage and answer the questions that follow :

Project Tiger turned 50 years recently. An often repeated headline was how the numbers have increased from 2,967 individuals in 2018 to 3,167 in 2022. This hides the bitter truth : Indians aren't going to compromise Western lifestyles for the survival of the Tiger. Most middle class Indians would loathe to give up their second, investment home or driving to the hills on a multilaned highway for the national animal.

You also can't change the needs of a tiger - it is a large, solitary animal. A female tiger needs about 15 square kilometres with a good prey base. If she reproduces, those cubs will require additional space. Data shows 30% of the tigers live outside protected areas, i.e in our midst. The more we fragment their habitat with urbanization, highways and industrial parks, the more they will be forced into unprotected areas.

Let's modify our approach. I advocate of three results by the 75th anniversary of project Tiger. First, instead of endlessly increasing tiger population, India can identify and achieve a metric, not much higher than the current numbers. Remember, 1000 tigers already roam around in farms and villages, more will be a disaster. Second, let's better protect what we have. Keeping protected tiger habitat undisturbed is key. Investment in keeping unprotected ecosystems intact should be financially viable and part of Corporate Social Responsibility (CSR) and more. Third, reducing confrontation with humans is essential. Monitoring and communications technology are key to this. Compensation for live stock killed must be rapidly assessed and pegged to market rates. For the next quarter century, let's think quality.

SubQuestion No : 46

Q.46 According to the writer, the 75th Anniversary of project Tiger should not aim at the following :

- (A) Keep the protected habitats intact
- (B) Keep the tiger population about the same as at present
- (C) Live stock killed by tigers should be adequately compensated for
- (D) Focus on quantity instead of quality

Choose the **correct** answer from the options given below :

- (1) (A) and (B) Only
- (2) (B), (C) and (D) Only
- (3) (C) and (D) Only
- (4) (D) Only

Comprehension:

Read the passage and answer the questions that follow :

Project Tiger turned 50 years recently. An often repeated headline was how the numbers have increased from 2,967 individuals in 2018 to 3,167 in 2022. This hides the bitter truth : Indians aren't going to compromise Western lifestyles for the survival of the Tiger. Most middle class Indians would loathe to give up their second, investment home or driving to the hills on a multilaned highway for the national animal.

You also can't change the needs of a tiger - it is a large, solitary animal. A female tiger needs about 15 square kilometres with a good prey base. If she reproduces, those cubs will require additional space. Data shows 30% of the tigers live outside protected areas, i.e in our midst. The more we fragment their habitat with urbanization, highways and industrial parks, the more they will be forced into unprotected areas.

Let's modify our approach. I advocate of three results by the 75th anniversary of project Tiger. First, instead of endlessly increasing tiger population, India can identify and achieve a metric, not much higher than the current numbers. Remember, 1000 tigers already roam around in farms and villages, more will be a disaster. Second, let's better protect what we have. Keeping protected tiger habitat undisturbed is key. Investment in keeping unprotected ecosystems intact should be financially viable and part of Corporate Social Responsibility (CSR) and more. Third, reducing confrontation with humans is essential. Monitoring and communications technology are key to this. Compensation for live stock killed must be rapidly assessed and pegged to market rates. For the next quarter century, let's think quality.

SubQuestion No : 50

Q.50 According to the writer, one of the aims of project Tiger in the next quarter century should be :

- (1) Increasing tiger population
- (2) Training the tigers to live in a contained area
- (3) Protecting the existing tiger population
- (4) Ensuring that the government stops building highways

Options 1. 1

2. 2

3. 3

4. 4

Q.77

Given below are two statements :

Statement (I) : Planning premises are defined as the anticipated environment in which plans are expected to operate. They include assumptions or forecasts of the future and known conditions that will affect the operation of plans.

Statement (II) : No distinction should be drawn between forecasts that are planning premises and forecasts that are translated into future expectancies, usually in financial terms, from actual plans developed.

In the light of the above statements, choose the **most appropriate answer** from the options given below :

- (1) Both **Statement I** and **Statement II** are correct
- (2) Both **Statement I** and **Statement II** are incorrect
- (3) **Statement I** is correct but **Statement II** is incorrect
- (4) **Statement I** is incorrect but **Statement II** is correct

Options 1. 1

2. 2

3. 3

4. 4

Comprehension:

Read the following passage carefully, and answer question.

In this modern digitalized world, business are required to be mindful both in terms of what they are doing and how they are doing it. The company's brand is not just dependent on the quality of products they are offering to people but on the overall impact of the company's operations on the society, environment and the economy.

Their sense of social responsibility provides them with a competitive edge over their competitors in a crowded marketplace. CSR is a holistic and integrated management concept whereby companies integrate their social and environmental objectives with their business objectives. It works on a Triple Bottom Line Approach i.e. Company focuses on 3P's; People, Planet and Profit while addressing all the expectations of its stakeholders. The majority of policy initiatives in the country are driven by the objectives of equal opportunities, minimizing poverty and human deprivation, focus on fundamental rights, etc. thereby leading to strong human development.

The choices that we make today will be going to affect and influence our future generations. Despite all this, inequality and disparity still exists. This year, the Indian Government implemented new CSR guidelines. These guidelines require Indian companies to spend 2 percent of their net profit net profit on CSR. India is the first country in the world to make CSR mandatory. Including the CSR mandate in Companies Act, 2013, is a great step of engaging the corporate sector in the equitable development of the country. Earlier companies were required to spend 2 percent of the profits towards CSR and in case of failure to do so; they were required to give reasons. But as per the present amendment, companies are required to spend 2 percent of profit towards CSR in the given time limit or are required to turn over this amount of profits in the funds which are run by the government.

The new amendment will require all the companies which qualify the provisions under CSR guidelines to spend the specified part of their profits towards Corporate Social Responsibility without failing.

SubQuestion No : 141

Q.141 What is the consequence for companies that fail to most the CSR spending requirement as per the new amendments ?

- (1) Companies may file a suitable explanation.
- (2) Companies may seek grace from the Government.
- (3) Companies may get it done from the Sister Companies.
- (4) Companies are required to turn over the profits to government - run funds.

Options 1. 1

Comprehension:

Read the following passage carefully, and answer question.

Introduction of Corporate Governance in a company brings order and methods in decision making process and fixes who should own the responsibility. The company will focus on its mission, vision and not any personal likes dislikes of a few top officers. The benefits of corporate governance are difficult to quantify in short range.

Accounting jugglery and showing profits give a company's short term gains but they are not long term policies for financial credibility. True financial performance of a company, openness and governance policies give investor's confidence.

The unethical policies or mismanagement by CEO or director of a company will be exposed by adhering to corporate governance principles. Corporate governance will throw light on excessive remunerations given to directors or CEOs. It improves investors' confidence and relations.

The occurrence of frauds and mismanagement can be detected early for remedial actions. It is also agreed that no system can remove fraudulent practices fully. Corporate governance is an open democratic system. They may appear long winded or time consuming or individual decision making is hindered.

SubQuestion No : 146

Q.146 How does corporate governance help in exposing unethical policies or mismanagement in a company ?

- (1) By promoting company's flag ship brand.
- (2) By enhancing employees productivity.
- (3) By fixing responsibilities and promoting openness.
- (4) By encouraging accounting Jugglery.
